## Objectives

---

A Front-End Developer, with two years of experience with pure cores of HTML, CSS, and JavaScript and one year with the Angular Framework. Looking forward to utilizing robust background in TypeScript and Angular in the development of innovative and interactive web applications that ensure great user experience. Endeavoring to add value and increase knowledge.

## Education

---

### Faculty Of Science

Department of Mathematical Statistics and Computer Science

Ain Shams University

2020 - 2024

## Experience

---

### Angular Front-End Developer - Freelancer

January 2023 - Present

- Developed and executed successful projects for different platforms to increase brand awareness and drive traffic to the company's website.
- Managed and grew the company's social media accounts by creating engaging content, monitoring analytics, and implementing social media best practices.
- Collaborated with cross-functional teams to develop and execute integrated marketing campaigns that leveraged social media to meet business objectives.

## Courses

---

**Angular Front-End Developer** - Digital Egypt Pioneers Initiative (DEPI)

**Front End Web Development using ReactJS** - Information Technology Institute (ITI)

## Projects

---

### Devfolio

Graduation Project from DEPI

A professional web developer portfolio, made with Angular v18.

Using Angular Routes, I made an easy and interactive portfolio that shows the projects done, a resume of the developer, and a simple form to contact.

### Devfolio

### Shattably

Graduation Project from Faculty of Science

A website for local services and public utilities, made with pure HTML, CSS, and JavaScript. It is an Egyptian website that serves customers who need to complete and finish construction and finishing works for units, whether houses, buildings, or lands. The website combines all construction services, from site engineering to blacksmithing, woodwork, decoration, and more.
